# KREAFUNK CARE

MORE THAN GREAT SOUND

## WITH 35% LESS PLASTIC

We're thrilled to introduce you to KREAFUNK CARE, a more environmentally friendly approach to our way of doing business.

For the CARE assortment, we've reduced the use of plastic in each product with 35%. We've replaced it with wheat straw fibres, which are made from renewable resources. Furthermore, we're thrilled to have partnered with the Danish textile company Gabriel® who has delivered the recycled polyester fabric for our audio grilles.

What about the quality you might ask? No worries. Though we've replaced a lot of the plastic with natural fibres as well as adding recycled fabrics on some of our products, the incredible sound that you know from our other products haven't changed a bit.

And to top it all: Every CARE product comes in a wooden box which is FSC® (Forest Stewardship Council®) certified (FSC N003167). This certification ensures that the wood is responsibly managed and harvested with the right environmental consciousness.

# GET TO KNOW US

## WE ARE ALWAYS AT YOUR SERVICE

At KREAFUNK we believe in good vibes and extraordinary good customer service. That is why our support team is always ready to answer any question you may have.

We always listen carefully to your inquiry and make sure that both parties fully understand the situation. It's really important to us that we find a solution together that satisfies you – and we always strive to provide it quickly.

## THE KREAFUNK DESIGN DNA

We strive to break the gap between creativity and functionality by uniquely uniting these in stylish and fashionable designs. Our product line consists of lifestyle products that add beauty and ease to your life.

We have a simple philosophy: Life shouldn't be an eternal strive for perfection. We celebrate and embrace the diversity of an ordinary everyday life where it's the small things that make it extraordinary.

With roots in the Danish design traditions, we design products with a minimalistic touch and with a keen eye on details, functionality, materials and not least colours.

### NO STRINGS ATTACHED

We're always on the move, exploring new things and new places. Everything should be easy to bring along. Therefore, we focus on making all our products portable.

### GREAT VALUE FOR MONEY

We create funky products with a remarkable quality and finish. At the same time the prices are affordable. It's for everyone!

### TRENDY CONSUMER PRODUCTS

We always keep an eye on trendsetters and inspiring environments. This makes our products strikingly trendy on colours, materials and expression.

### EASY TECH

Every product is made with great focus on the need for simplicity in the everyday life. We call it easy tech. Effortless to operate so everyone can join our universe.

## BESIDES MUSIC WE OFFER CHIC PACKAGING

When you purchase an audio product from KREAFUNK it's delivered in our chic signature wooden box.

We think packaging is almost as important as the insides. Not only in terms of aesthetics, but in shielding the products from outside damages too. That's a way to fill two needs with one deed.

### **POWLONIA TREE**

All of our audio products, our wireless chargers and our power banks come in packaging made from the Poulownia tree, which is by far one of the fastest growing trees; a tree that requires low maintenance and contains substances that have different beneficial effects on the environment.

### **WITH LESS WASTE IN MIND**

The packaging journey doesn't end here. In the future you'll see that we've replaced the Styrofoam with FSC cardboard in the master boxes; That we've removed the extra protection foam in our inner boxes, and that we've decreased the sizes of our packaging.

Automatically this has the effect on the foam within the packaging as it's being decreased as well. Thus, we're happy to say that we only use the amount of packaging appropriate to ensure safe handling and storage of the products. This way, we ensure that there is no damage to the product and no excessive waste.

### **PROLONGING THE PRODUCT LIFE**

Besides the obvious benefits from the above, we encourage you to prolong the life of the boxes. With the wooden boxes, we offer a chic storage solution, a unique piece to your décor or a fun element to any creative project.
