A tale worth telling

It's time to take your art to the next level. That is Cloudnola's mission - a lifestyle brand bringing you modern, functional art.

Cloudnola started with a range of contemporary clocks - artful pieces that acted as conversation starters, as well as cheery reminders of the hour.

Since 2020, Cloudnola made time to broaden the collection, taking on all things wall art.

Timeline Black - SKU0061  
 Matt Black / 60 x 8 x 8 cm  
 12 hour AM / PM / 2C battery  
 Design: Wiebe Teertstra  
 For USA available in Spring

“Cloudnola Timeline Wall Clock series has been another great crossover between wall clock and a mantel clock, it can be mounted or set on a shelf. The amazing sleek design comes from Wiebe Teertstra and it has been ranked as the top flip clock on the market.”

“Move over Alexa - Texttime tells you the time exactly how it is. It takes the guesswork out of timekeeping, and with its flip clock design and casual phrasing, makes for a unique talking point - whether you wall mount it or place it on your shelf. The Texttime is Renée Vendrigs favourite design.”
